September Newsletter*

Hello everyone, it's been a while since I've written to you and I am sorry if this will be a little long but there are a lot of wonderful things that I would like to share with you. It's been a very busy and blessed summer (winter here). In June I applied for the visa to go to Baltimore for the conference but I was denied. I wouldn't say it was the embassy that denied me but rather God had a plan for me here in Peru. Someone had to be in charge while P. Stan was away. ☺ Just joking! We had 5 young people visiting us from the States and we also had a lot of church visitors from Lima. I am happy to say that the Body here is growing in the Lord and in number. God is honoring us as we follow the pattern: church services, personal Bible study, Bible College, evangelism, prayer and fellowship.

Sketch board in Cajamarca

***Mission trip to Trujillo and Cajamarca (20-24 of August)!***

8 of us drove N of Peru to Trujillo where, like always, we did evangelism and had church service in the house of Julio Montoya, the faithful man of God who for 2 years now has been traveling for 8 hours every weekend to come down to Lima for Bible College. One night we did evangelism in the central plaza and met Efrain. He was very depressed and was on his way to the Catholic Church, but never got there because he saw P. Stan doing sketch board. He stayed with us and even traveled with us to Cajamarca (7 hours from Trujillo). God was after him and met him when he needed Him the most; counseled him and filled him in such a wonderful way that he even came down to Lima for the conference with P. Scibelli. Our God is so wonderful, He can do and does way above what we think or imagine. Our vision for this city is to start a Greater Grace Church and Bible College. We met a few interested people and will start sending them the classes that we have in Lima and the ones from Baltimore that we translated.

***Los Sinchis - the police academy in Mazamari!***

P. Stan was invited to speak to 250 men that are being trained to fight the terrorists. This was our second time preaching there, this time to a different group. Many got saved and confessed that they never heard the gospel preached so clearly before. They invited us to come again and preach because they said: "there are many others who need to hear this message".

When God opens a door... no one will close it!

Preaching in Mazamari

Tribe in Mazamari

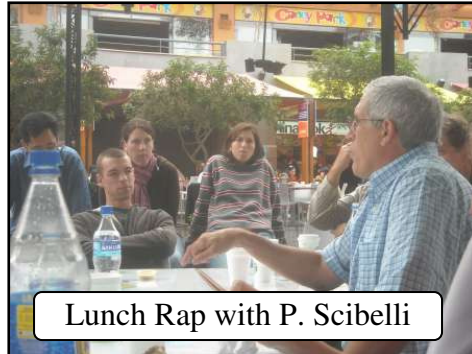

Service in Mazamari

**Mission trip to Mazamari! (28- 31 of August)**

15 of us traveled to the jungle, this time to plant a church. The last two times we went there we visited P. Jorge, the father of a young lady in our church. He was affiliated with a different ministry but fell in love with the grace message by hearing "The Grace Hour" on the radio and decided to leave his ministry and take our Bible College classes. We gave him a DVD player and the Bible classes from the previous semesters. We will continue to visit him and send him some more materials and pray for the work there. Many people are thirsty for the truth. One night we were doing sketch board in the central plaza and after P. Stan was finished preaching, one man asked me if I could ask him to preach some more. He said he goes to a church there but he never heard the word of God preached so clearly before. P. Stan continued and people stayed some more. It was unbelievable!

Conference in Lima

Lunch Rap with P. Scibelli

**Conference with P. Scibelli in Lima, Peru! (10-16 of September)**

We were honored and blessed to have P. Scibelli here with us for a week. Church services, evangelism, raps, prayer, fellowship... our cup was filled. We also had P. Mike Stevens, P. Juan Franco, Enrique, Eduardo and Alfredo joining us from Ecuador. From Chile we had P. Christian Diaz, Rolando, Flavia and Pilar.

From USA: P. Gary Thornton, P. Harold Bogardus, P. Bill Alexson and his son Brandon, P. Drew and Annette Wileczek. Last but not least Fekete Zsuzsa from Hungary/Florida came to be with us.

God told us we are engrafted in His hands, that He is the One who is and He doesn't change, to walk by faith and get rid of the little foxes, He told us not to limit Him, He is greater than our little minds, He told us that we are the object of His passion, He told us to follow the pattern, He told us not to get occupied with the thought whether He will deliver us or not, but to be occupied with knowing Him that loves us. What a Father!!!

Annette Wileczek was our guest speaker for the usual Saturday afternoon ladies Bible Study. We all wept, laughed, were blessed, edified and learned a lot from a faithful woman who walks with God and who was entrusted to raise 10 wonderful missionaries. God bless her!!!

Preaching in the English Institute where P. Lajos works. More open doors
